PennDOT Mifflin County Maintenance Work Schedule for the Week of April 29

Clearfield, PA – The Pennsylvania Department of Transportation (PennDOT) announced the following schedule of maintenance activities in Mifflin County the week of April 29. PennDOT performs year-round maintenance in its mission to provide a safe, efficient transportation system, and the scope of work in Mifflin County for the coming week is as follows:

Crack Seal & Hot Pour Mastic

- Route 1005 (Church Hill Road/Manns Narrows Road/ Old Route 322/ Valley Street/Market Street/Electric Avenue/Main Street/Tea Creek Road/ South Logan Boulevard) between the intersections of Route 655 in Brown Township and Route 22 in Lewistown Borough. Monday, April 29, through Wednesday, May 1. Flaggers in the roadway will provide traffic control during daylight hours.
- Route 3023 (Ort Valley Road) in Derry Township. Thursday, May 2, and Friday, May 3. Flaggers in the roadway will provide traffic control during daylight hours.
- Route 4013 (Ferguson Valley Road/West Freedom Avenue) between Nolan Drive in Derry Township and Main Street in Burnham Borough. Monday, April 29, through Friday, May 3. Flaggers in the roadway will provide traffic control during daylight hours.

Crack sealing and hot pour mastic operations prevent water intrusion from seeping through cracks or joints in an asphalt road, which can lead to potholes and pavement breakup. They are proactive preventive maintenance strategies to prevent water from entering the roadways and accelerating the formation of potholes and other failures.

Pipe Replacing & Cleaning

- Route 2002 (Freedom Avenue/Vira Road/Old Stage Road/Belltown Road) between Wood Street in Burnham Borough and Loht Road in Decatur Township. Monday, April 29, and Tuesday, April 30. Flaggers in the roadway will provide traffic control during daylight hours.

Pipe replacement and cleaning are essential in maintaining water flow around state roadways. Controlling water flow is one of the most important aspects of maintaining pavements. Uncontrolled water flow will damage both the pavement surface and the area under the pavement, which causes deterioration across the length of the pipe.

This schedule is subject to change due to weather conditions, emergencies, or other unforeseen interruptions.

Customers can report road concerns by calling 1-800-FIX-ROAD. If calling after hours, please leave a name and phone number.

For more information on PennDOT's maintenance activities, visit www.PennDOT.pa.gov/about-us/maintenanceactivities.

Motorists can check conditions on major roadways by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information, and access to more than 1,000 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by [following local alerts on X](#).
