Unsolicited Proposals

- Projects Deferred:
 - Bridges that pay for themselves
 - Greater Pittsburgh Area Railway
- Projects Under Further Evaluation:
 - Capital Area Transit Bus Maintenance Facility
 - Wireless Waterways
- Projects Recommended for Procurement

Wireless Telecom Partnership

- Proposed by: Site Acquisition Services, Inc., Paoli, Pa.
- Description: SASI will identify and market all existing structures (bridges, signs, buildings, maintenance facilities, etc.) controlled by PennDOT where wireless antennas and related equipment can be attached and market those opportunities to wireless service providers.

Truck Permitting and Routing System

- Proposed by: Bentley Systems, Inc., Exton, Pa.
- Description: Bentley Systems proposed the upgrade/replacement of PennDOT's automated Permit Routing/Analysis System (APRAS) with a more fully functional special hauling analysis, routing and permitting solution.

Bridge Replacement Program
