

SR 0008 (Richard C. Frame Highway) Reconstruction Project

Phase 2 Southbound Detour, Venango County

In preparation for the detour of northbound traffic on to southbound Route 8, temporary repairs on the southbound lanes will be completed. Starting on May 4, 2020, all through traffic on southbound Route 8 from the intersection of Route 8 and Polk Cutoff Road to the intersection of Route 8 and Old Route 8 will be detoured to Old Route 8. Once the repairs are complete, northbound traffic will be detoured to the southbound lanes; and reconstruction work will start on the northbound lanes.
