Rochester Road Slide Repair
SR 4011, Section A16
Town of McCandless, Allegheny County
PROJECT TEAM

- Design Division
  - Direct questions to:
  - Dan Bliss, P.E. - Project Manager at 412.429.4943 or dbliss@pa.gov.
  - Mark J. Young - District Environmental Manager
  - Nick Krobot, P.E. - Assistant District Environmental Manager

- Press Office
  - Steve Cowan - District Press Officer

Please complete survey at end of presentation
PURPOSE OF PRESENTATION & PROJECT INTRODUCTION

- SR 4011, Section A16 (Rochester Road) Project
  - The purpose of this presentation is to introduce the project to the public, gather feedback, and present the construction staging
  - The purpose of the project is to reestablish the roadway.
PROJECT LOCATION
The project includes two landslide areas located on Rochester Road.

- The south slide is located just north of the intersection of Rochester Road (SR 4011) and Village Drive. The proposed repair is a rock slope.
- The north slide is located north of the intersection of Rochester Road (SR 4011) and Sloop Road. The proposed repair is a Geosynthetic Reinforced Soil (GRS) slope. The alignment of the road will be shifted two feet to straighten out a kink in the current alignment.

- Project will be built utilizing a full detour
- Construction anticipated to begin summer/fall of 2020
Public outreach begins with the **NEPA** (National Environmental Policy Act) process:

- NEPA requires agencies to integrate environmental values into their decision-making processes by considering the environmental impacts of their proposed actions and reasonable alternatives to those actions.
- NEPA also includes public involvement activities and gathering feedback from the public.
PRELIMINARY DETOUR PLAN

APPROXIMATELY 4.6 and 5.2 MILE DETOURS

South Landslide

North Landslide
