Atherton Street Construction Schedule Updated
Additional work between Park Avenue and Curtin Road to take place in spring of 2020

State College, PA -- The Pennsylvania Department of Transportation (PennDOT) is alerting motorists that an updated construction schedule for its North Atherton Street (Route 3014) project in State College has been issued. An updated map of the construction schedule can be found at www.penndot.gov/AthertonStreet.

Work will be added this year that will extend the Park Avenue turning lane heading away from the University. It will also widen the roadway and install new curbing from Park Avenue to Curtin Road. The contractor anticipates completing most of this work by the end of November 2019.

The remaining work will take place in the spring of 2020 and will include drainage and casing installation for future development, roadway widening, traffic signal upgrades, curbing and ADA compliant curb ramp installation. Adding this work to the current contract will eliminate the need to restrict pedestrians from crossing Atherton Street at Park Avenue during the next phase of the Atherton Street project.

PennDOT thanks motorists for their continued patience as work on the project continues. An update on work scheduled for the week of July 22-26 will be issued later in the week.

PennDOT reminds drivers that they can subscribe to PennDOT news in Cameron, Centre, Clearfield, Clinton, Elk, Juniata, McKean, Mifflin, and Potter counties at www.penndot.gov/District2.

PennDOT encourages drivers to “Know before they go” and to check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA is free, available 24 hours a day, and provides traffic delay warnings, weather forecasts, traffic speed information, and access to more than 950 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
