Potters Mills Project Update for mid-January

State College, PA – With a new year underway, the Pennsylvania Department of Transportation (PennDOT) is issuing a mid-January update for its Route 322/Potters Mills Gap project in southeast Centre County. Traffic stops are expected to continue. Up-to-date information can be found on the PMG Project page at www.penndot.gov/pottersmillsgap. **Through January 18**, drivers may encounter the following:

- **Drivers eastbound and westbound may encounter short traffic stops for work activity on the project. Any stops that take place will be done during daylight hours.**
- A mile east of Potters Mills, the crossover from Decker Valley Road to Sand Mountain Road remains in place, with one lane available in each direction. This crossover, along with a 13-foot width restriction, will continue through winter.
- Work will also continue off the roadway and drivers should **be alert for construction vehicles entering and exiting Route 322** through the Potters Mills area.

This is the third and final phase of a construction project dating back to 2015. Phase One of the project constructed the new bridge at Sand Mountain Road. Phase Two created the new local interchange on Route 322 at Sand Mountain Road. The goal of Phase Three is to reconstruct Route 322 from Sand Mountain Road to Potters Mills – including a new Route 322/Route 144 intersection. The completed project will alleviate congestion and allow traffic to move more safely and efficiently from the Centre/Mifflin County line to Potters Mills.

PennDOT encourages drivers to “Know before they go” and to check conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA is free, available 24 hours a day, and provides traffic delay warnings, weather forecasts, traffic speed information, and access to more than 860 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
