State College, PA – The Pennsylvania Department of Transportation (PennDOT) is issuing a beginning of July update for its Route 322/Potters Mills Gap project in southeast Centre County. Up-to-date information can also be found on the PMG Project page at www.penndot.gov/pottersmillsgap.

Drivers can expect the following June 29 through July 6:

- **On Monday, July 1,** the westbound detour using Route 144 north and Route 45 west will be in place from 8:30 A.M. and 4:00 P.M. The detour is being used so that crews can set barrier on the western end of the project. Eastbound traffic will remain on Route 322.
- **No significant traffic stops will take place between 6:00 A.M. Wednesday, July 3 through 6:00 A.M. Friday, July 5.**
- **No work will take place Thursday, July 4 in observance of the Independence Day holiday.**
- **The contractor does plan to work on Saturday, July 6. This work should not impact traffic.**
- A mile east of Potters Mills, the crossover from Decker Valley Road to Sand Mountain Road remains in place, with one lane open in each direction. This crossover will continue through September.
- **Within the crossover, there is a 14-foot width restriction for westbound traffic and a 15-foot width restriction for eastbound traffic.** These width restrictions will also be in place through September.
- **Work will also continue off the roadway and drivers should be alert for construction vehicles entering and exiting Route 322 through the Potters Mills area.**

This is the third and final phase of a construction project dating back to 2015. Phase One of the project constructed the new bridge at Sand Mountain Road. Phase Two created the new local interchange on Route 322 at Sand Mountain Road. The goal of Phase Three is to reconstruct Route 322 from Sand Mountain Road to Potters Mills – including a new Route 322/Route 144 intersection. The completed project will alleviate congestion and allow traffic to move more safely and efficiently from the Centre/Mifflin County line to Potters Mills.

Glenn O. Hawbaker, Inc. of State College is the contractor on this $82 million project.

Motorists are encouraged to “Know Before They Go” by checking conditions on more than 40,000 roadway miles by visiting www.511PA.com. 511PA, which is free and available 24 hours a day,
provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 950 traffic cameras.

511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by following regional Twitter alerts accessible on the 511PA website.
