

PennDOT and its industry partners are busy improving the 40,000 miles of roadway and 25,000 bridges in its care. When you encounter our work zones, please keep the following tips in mind for your safety and the safety of highway workers.

-  Drive the posted work-zone speed limit.
-  Stay alert and pay close attention to signs and flaggers.
-  Turn on your headlights if signs instruct you to do so.
-  Maintain a safe distance around vehicles. Don't tailgate.
-  Use four-way flashers when stopped or traveling slowly.
-  Avoid distractions and give your full attention to the road.
-  Always buckle up.
-  Expect the unexpected.
-  Be patient.

# WORK ZONE SAFETY

## Work Zone Laws

**Headlights On** - All motorists are required to travel with their headlights turned on in all work zones which have “Turn On Headlights” signs.

**Speed-Monitoring Devices** - Interstate work zones with a project cost exceeding \$300,000 will have a speed-monitoring device to alert motorists of their speed prior to entering the work zone.

**Posting of Active Work Zones** - Active work zones must be designated as such to notify motorists when they enter and leave the work zone. A white flashing light attached to the “Active Work Zone When Flashing” sign will indicate an active work zone. The flashing light will only be activated when workers are present and turned off when workers are not present.

**Fifteen-Day Loss of License for Driving Dangerously** - Motorists caught driving 11 miles per hour or more above the posted speed limit in an active work zone, or who are involved in a crash in an active work zone and are convicted for failing to drive at a safe speed, automatically will lose their license for 15 days.

**Fines Doubled/Jail Time Increased** - Fines for certain traffic violations - including speeding, driving under the influence, and failure to obey traffic control devices - are doubled for active work zones. Also, the law provides for up to five years of additional jail time for individuals convicted of homicide by vehicle for a crash that occurred in an active work zone.
