

Greenville Municipal Airport (4G1) is a general aviation airport located three miles north of Greenville. The airport serves the northwestern Pennsylvania region by offering quick access to many local attractions and sites for recreational and leisure travelers. The airport's location offers a 10-minute drive to Pymatuning State Park and a 20-minute drive to Lake Wilhelm and Shenango River Reservoir. Other nearby attractions include golf courses, hunting and fishing lands, and other outdoor activities. The airport also supports flight training, aerial photography, and police/law enforcement flights. These operators rely on the airport for convenient access to the region as well as a low-traffic aviation environment to make getting into and out of the area easy. The airport has a fixed-base operator (FBO) that hosts a monthly fly-in to attract visitors to the airport. Between 25 and 50 aviation enthusiasts typically attend this event, increasing the airport's visibility in the local community.

This airport is classified as a Limited Airport in Pennsylvania's State Aviation System Plan and is eligible to receive federal funding from the FAA.

Economic Impact Categories

Employment:
The total number of persons employed that are associated with business revenues and payroll, regardless of whether they are full-time or part-time.

Payroll:
Total employment compensation including wages and other benefits (e.g., health care insurance payments, retirement contributions, etc.)

Output:
Includes expenditures needed to administer airports, sales of goods and services by airport tenants, budget expenditures by public sector agencies located on airports, cost of capital expenditures, visitor spending in Pennsylvania's hospitality-related sectors, and sales enabled by air cargo services. This is also referred to as "business revenues" or sales.

Direct Impacts: Initial impacts that occur on- and off-airport, such as airport operations, construction, airport tenants, visitor spending, and more.

Multiplier Impacts: Includes "indirect" and "induced" impacts generated when portions of direct revenues are used to purchase goods and services from PA businesses and when workers re-spend their income in the state.

Total Statewide Aviation Impacts

The statewide economic impact of Pennsylvania's airports consists of two major categories: On-Airport Activity and Off-Airport Activity. Together, they account for approximately **\$34.2 billion in economic impact for Pennsylvania.**
