

## Sand Truck for Fluid Leaks at Crash Scenes

PennDOT District 5 – Schuylkill County

### Problem/Challenge Addressed

- Meets immediate needs when contacted day or night
- Need to spread sand to absorb fluids

### Method/Process/Product to Resolve Challenge

- One-ton dump with spreader on seven days a week, 365 days per year
- Allows for faster response time
- Any operator can drive the truck
- Quick connect spinners are easy to put on the truck

### Results/Key Takeaways

- Improves response time
- More maneuverable at crash scene
- Fuel and time savings
- Does not tie up a tandem truck during planning periods one and three
