

Pennsylvania Department of Transportation Section 106 Annual Report - 2019

Prepared by:

Cultural Resources Unit, Environmental Policy and Development Section,
Bureau of Project Delivery, Highway Delivery Division,
Pennsylvania Department of Transportation

Date: April 07, 2020

For the:

Federal Highway Administration, Pennsylvania Division
Pennsylvania State Historic Preservation Officer
Advisory Council on Historic Preservation

Appendix A: Exempted Projects List	
Appendix B: 106 Project Findings List	

I. Introduction

The Pennsylvania Department of Transportation (PennDOT) has been delegated certain responsibilities for ensuring compliance with Section 106 of the National Historic Preservation Act (Section 106) on federally funded highway projects. This delegation authority comes from a signed Programmatic Agreement [signed in 2010 and amended in 2017] between the Federal Highway Administration (FHWA), the Advisory Council on Historic Preservation (ACHP), the Pennsylvania State Historic Preservation Office (SHPO), and PennDOT. Stipulation X.D of the amended Programmatic Agreement (PA) requires PennDOT to prepare an annual report on activities carried out under the PA and provide it to the FHWA, SHPO and ACHP within in 60 days of the new calendar year. The following document, therefore, is PennDOT's good-faith effort to comply with this Stipulation.

This document does not pertain to, or include information related to, state-funded projects (i.e., those projects solely intending to comply with the Pennsylvania State History Code), nor for those projects requiring permits from any other federal agency (e.g., United States Army Corps of Engineers [USACE] or US Coast Guard) which would render those agencies the lead federal agency for a Section 106 undertaking, or from other bureaus outside of the Bureau of Project Delivery (e.g., Bureau of Aviation, Public Transportation, Motor Vehicles, etc.).

The period covered in this annual review is between January 1 and December 31, 2019 and provides summary statistics on: projects exempted from Section 106 review; effect findings (i.e., no effects, no adverse effects, and adverse effects); information on SHPO objections to effects determinations; an update on PennDOT Cultural Resource Professionals (CRPs) and District Designees (DDs) staffing and training to maintain their delegation to review projects under the PA; and finally, a few notable success stories.

II. Summary of Projects Reviewed under the PA

The heart of this document comes from Section X.D of the amended PA which states: "PennDOT will prepare an annual report on the activities carried out under this Amended PA. The report will include a list of projects and findings made by PennDOT. The report may also identify issues and make recommendations for improving the implementation of this Amended PA. PennDOT will submit the report to the signatories of this Amended PA, within 60 days of the start of the calendar year. The report will serve as the basis for an annual review of this Amended PA."

This section provides a statistical summary of projects reviewed by PennDOT District Designees (DDs) and Cultural Resource Professionals (CRPs), describes SHPO

disagreements with determinations of eligibility and effect made by PennDOT, and summarizes comments made by federally recognized Tribes/Nations and consulting parties on projects. The data in the tables below are derived from PennDOT's online cultural resources public consultation website called "Pennsylvania Heritage and Transportation (PATH)" which can be found at <https://path.penndot.gov/>.

III. Exemptions

Appendix C of the Amended PA contains a list of project activities that may be exempted from further Section 106 review provided that the activities meet certain conditions. The activities on the list, with the conditions imposed, should have no potential to effect historic properties. Appendix C of the Amended PA is divided into two sections, Level 1 activities and Level 2 activities. Level 1 activities may be exempted by either DDs or CRPs, while Level 2 activities can only be exempted by CRPs.

Between January 1, 2019 and December 31, 2019, PennDOT exempted 256 federally-funded projects from further review, with DDs exempting 92 projects and CRPs exempting 164. The table below summarizes the number of exemptions made by each District and by the DDs and CRPs. A more detailed spreadsheet including a list of projects that were exempted (by District and MPMS#), the exemption type per Appendix C of the Amended PA, the person making the exemption, and the date the exemption was made, can be found in **Appendix A** of this report.

EXEMPTED PROJECTS

District	Designee	CRP	TOTAL
1	17	15	32
2	11	10	21
3	0	14	14
4	2	26	28
5	18	14	32
6	6	27	33
8	2	20	22
9	29	9	38
10	0	3	3
11	7	10	17
12	0	12	12
99*	0	4	4
TOTAL	92	164	256

*Note: District 99 is a code reserved for projects originating in PennDOT's Central Office.

IV. Review of Non-Exempt Projects by CRPs

In addition to the 256 exempted projects, PennDOT also made 220 effect determinations. This includes: 165 findings of “no effect” (75%), 42 findings of “no adverse effect” (19%), and 13 findings of “adverse effects” (6%). These numbers are similar to the past several years of project undertakings and effect findings. The below table categorizes the effect findings by PennDOT Engineering Districts. A full listing of project findings can be found in **Appendix B**.

Effects Determinations

District	No Effects	No Adverse Effects	Adverse Effects	TOTAL
1	10	3	2	15
2	22	1	1	24
3	12	3	0	15
4	12	4	1	17
5	11	4	1	16
6	26	8	2	36
8	12	9	3	24
9	17	7	0	24
10	11	0	0	11
11	16	2	1	19
12	16	1	2	19
TOTAL	165	42	13	220

V. Disagreements/Objections and Concerns Expressed by the SHPO on Eligibility and Effects

A large component of PennDOT’s project delivery program and consultation under Section 106 relies on the inherent trust placed on it, and built over many years, by the SHPO and FHWA to submit projects without review and/or concurrence. As spelled out in the delegation programmatic agreement, PennDOT is only required to consult with the SHPO on findings of “no adverse effect,” under certain conditions as outlined in the Amended PA, and all “adverse effect” findings. PennDOT’s CRPs may also consult with SHPO and seek concurrence outside of these scenarios at their discretion. Typically, this may include concurrence on level of identification, mitigation, and other consultation as part of the Section 106 undertaking. In total, PennDOT CRPs requested concurrence from SHPO 110 times (28 for eligibility and 82 for effects determinations) during 2019. Of those requests, seven resulted in a disagreement or objection from SHPO. All of

these objections were resolved through further consultation, or are on-going as of the drafting of this report. The below table enumerates the total number of eligibility and effects concurrence requests by Engineering District:

SHPO Concurrence Requests

District	Eligibility	Effects	TOTAL
1	0	8	8
2	0	4	4
3	0	7	7
4	3	6	9
5	3	4	7
6	12	20	32
8	5	19	24
9	3	9	12
10	0	0	0
11	1	4	5
12	1	1	2
TOTAL	28	82	110

SHPO Disagreements or Unresolved Requests for Additional Information

- *District 3-0, Lycoming Co., SR 0405-069, MPMS# 6261, ER# 2003-6027-081:* While not an outright objection, SHPO requested additional information on a bridge rehabilitation memo submittal before providing concurrence. The request for additional information included a series of questions, including providing examples of other “T-Beam” bridge rehabs. Consultation on this project is continuing.
- *District 4-0, Luzerne Co., SR 0011-355, MPMS# 67434, ER# 2020-8030-079:* SHPO requested additional information on the proposed truss rehab, specifically noting that “the Rehabilitation Analysis does not adequately document the proposed project.” PennDOT is actively working with SHPO to resolve the additional information request. SHPO disagreed with PennDOT's effects determination of the bridge over the Reading, Blue Mountain and Northern Railroad (RBMNRR). SHPO specifically questioned the need to provide a pedestrian crossing and if the bridge could be rehabilitated without widening. PennDOT provided justification for need for a pedestrian crossing and that widening does not meet the project need. SHPO concurred with this determination
- *District 5-0, Berks Co., SR 2016-01B, MPSM# 10527, ER# 2015-8142-011:* SHPO disagreed with PennDOT's effects determination of the bridge over the

Reading, Blue Mountain and Northern Railroad (RBMNRR). SHPO specifically questioned the need to provide a pedestrian crossing and if the bridge could be rehabilitated without widening. PennDOT provided justification for need for a pedestrian crossing and that widening does not meet the project need. SHPO concurred with this determination.

- *District 6-0, Chester Co., SR 0202-CNM, MPMS# 95430, ER# 2014-8073-029*: SHPO disagreed with the PennDOT's assessment that the project would have no effect to the Westtown Inn, specifically on any vibrational impacts that may affect the resource. Consultation to resolve this objection is on-going.
- *District 6-0, Montgomery Co., SR 0023-2NG, MPMS# 66952, ER# 2004-8051-091*: PennDOT requested concurrence from SHPO that a masonry culvert is not individually eligible for listing in the National Register of Historic Places and does not contribute to the Valley Forge National Historic Park or Valley Forge National Historic Landmark. SHPO disagreed noting that they felt the bridge was a contributing resource under Criterion A for its association with the locally significant lime industry of Port Kennedy. In response to SHPO's disagreement, PennDOT provided information indicating that there is no evidence that the culvert is associated with the lime industry and the age of the culvert is unknown. SHPO continues to disagree and maintains that the culvert is a contributing resource to the National Register-listed Valley Forge National Historical Park. Consultation to resolve the objection is on-going.
- *District 6-0, Montgomery Co., SR 7046-232, MPSM# 16408, ER# 2006-8063-091*: SHPO disagreed with PennDOT's rehabilitation analysis stating that "more information is needed to substantiate the project needs and the inability of the current bridge to rehabilitated in a manner that meets those needs." Consultation is on-going for this project.
- *District 8-0, Lancaster Co., SR 7226-BRG, MPMS# 94751, ER# 2017-8065-071*: PA SHPO concurred with the eligibility finding that the Hershey Farm and Lapp Farm are not individually eligible but disagreed with PennDOT's determination that the Lapp Farm did not contribute to the rural historic district. Consultation is on-going.

VI. Public and Tribal Consultation

The amended PA, as well as the regulations implementing Section 106 (36 CFR § 800), places a strong emphasis on meeting the spirit of Section 106 in terms of engaging the public in projects, and seeking public and consulting party input on projects, including ways to avoid, minimize and/or mitigate effects to historic properties. PennDOT, working in conjunction with the SHPO, continued to build upon relationships with community organizations and forge new relationships. In 2019, PennDOT

continued its efforts to identify new ways to involve the public, since it is often difficult to get people to come out to meetings, even when they care about historic resources in their community. This included a complete reorganization of the Cultural Resources website, which is now nested within PennDOT's website, and can be found at: <https://www.penndot.gov/ProjectAndPrograms/Cultural%20Resources/Pages/default.aspx>. The previous webpage had been hosted on a private website outside of the Commonwealth's servers. The new website will facilitate searching of marketed historic bridges, searching of various PennDOT cultural resources booklets and videos, and provide for a much better overview of the program, in general.

PennDOT's public consultation website continues to evolve as we attempt to look at ways of improving its functionality. Major upgrades were undertaken in 2019 including the system receiving a new URL (<https://path.penndot.gov>), to better associate it with being a PennDOT product, and moving onto PennDOT servers. The system is now simply known as "PATH" or "Pennsylvania Heritage and Transportation;" formerly, it was known as "ProjectPATH".

PennDOT and PA SHPO have had on-going meetings throughout 2019 to prepare for the roll-out of SHPO's new file management system called "PA-SHARE." The intent, from PennDOT's perspective, is to reduce duplication of efforts from both agencies. The integrated system between PATH and PA-SHARE should be able to seamlessly share files without SHPO having to go into PATH and reducing the need of CRPs to go into PA-SHARE. The systems integration is supposed to be fully developed and implemented in late 2020.

VII. Training and Delegation under the PA

The PA contains a requirement that anyone reviewing projects must receive training to both attain and retain delegation to make exemptions or findings. To receive delegation to operate under the PA, both the District Designees (DD) and Cultural Resource Professionals (CRP), must have taken a Section 106 introductory course, training on the terms and application of the PA, and SHPO Cultural Resource Training. To retain delegation the signatories to the PA agreed that PennDOT CRPs or DDs may substitute attendance at the Statewide Conference on Heritage which is hosted by the PHMC and Preservation Pennsylvania, the statewide historic preservation advocacy organization.

PennDOT's Cultural Resource Unit in Central Office maintains a list of the current CRPs and DDs and the training they have taken.

The following training was made available to CRPs and DDs during calendar year 2019:

- Section 106 Principles and Practice (Intro), held in conjunction with the State Heritage Conference, June 17-19.
- Byways to the Past/Statewide Conference on Heritage – June 19-21, 2019
- Cultural Resources Group Meeting, Laurel Hill State Park – September 18, 2019.
- Handbook refresher training for District Designees at PennDOT's Environmental Managers Meeting, Oct 30-31, Nov. 1, 2019.

A. Staffing Changes

PennDOT's cultural resources program underwent a major change in 2019 with multiple staffing retirements. Ira Beckerman, PhD., the head of the cultural resources program for 25 years, retired in late 2018. Kara Russell, who was previously the architectural historian supervisor, replaced Dr. Beckerman. This created a vacancy for an architectural historian supervisor. Kris Thompson, who previously worked as a cultural resource professional in District 5-0 and 4-0, was selected for this position and retained her CRP duties in 5-0. These two changes created an opening in the staff level. After some staffing adjustments, PennDOT created an architectural historian position for Districts 9-0 and 12-0, which will be filled during calendar year 2020. Another opening was created at the staff level with the retirement of Cathy Spohn, the District 6-0 archaeologist. She had also been with the Commonwealth for more than 20 years and retired in May 2019. PennDOT is actively seeking to fill this position by the middle of 2020. Lastly, Joe Baker, who maintained the cultural resources unit's website, was head of the Pennsylvania Highway Archaeological Survey Team (PHAST) program, and intern coordinator and mentor, also retired at the end of May 2019. His position will be converted to a historic bridge planner to primarily assist in the tracking and marketing of PennDOT's historic truss bridge program and management of other historic bridge types and programs.

B. Consultant Support

PennDOT staff continues to rely on its consultant community of professionals to in-fill and supplement where needed. All consultant CRPs meet the same rigorous standards as permanent staff, including meeting Secretary of the Interior standards and qualifications and PennDOT's delegation process. Newly "delegated" consultant CRPs for 2019 include Charles Richmond (architectural historian) from McCormack Taylor,

and Matt Hamel (architectural historian, and former PennDOT CRP) from AECOM. Laura Ricketts, from Markosky, served as the consultant CRP for District 12-0 and will continue to until that position is permanently filled. Lindsey Allen also provided consultant support for District 3-0 and 4-0. However, she is nearly finished with this task as PennDOT's Heather Gerling is now a delegated CRP.

VIII. Success Stories

- ***District 1-0: Erie Co., US 6N & PA 99 Intersection Improvements, MPMS# 109901***

During cultural resources investigations in support of the US 6N & PA 99 Intersection Improvement project in Edinboro, Erie County, PennDOT's Cultural Resource Professional (CRP) for District 1-0 identified a locally prominent landmark within the project Area of Potential Effect. During consultation with Preservation Erie, it became apparent to the CRP that the 1929 "Crossroads Dinor" was a locally significant diner noted for its long history in Edinboro. Following a cultural resource assessment of the property the CRP determined that the building does not meet National Register of Historic Places eligibility due to compromised historic integrity. Nevertheless, the resource is an important asset to the community and merits consideration for preservation. The PennDOT design team concluded to avoid the property by developing an alternative that meets project purpose and need while avoiding direct impacts to the Crossroads Dinor.

- ***District 4-0: Pike Co., Mott Street Bridge Rehab, MPMS# 104324***

After nearly twenty years of planning, Pike County, with the assistance of PennDOT and FWHA, completed the rehabilitation of a 1903, Pratt truss bridge at the end of 2019. The rehabilitation of this bridge was a major achievement. Mott Street Bridge is a rare surviving example of a Pratt Truss from the early 20th century and is one of a few remaining examples from this region. The National Park Service, Delaware Water Gap, was also a sponsor of the project as the bridge provides a crucial link from the Park's trail network into the borough of Milford.

Re-opening of Mott Street in the press: <http://www.pikecountycourier.com/news/local-news/mott-street-bridge-grand-reopening-to-be-held-ian-2-EA763600>

- ***District 5-0: Berks Co., Penn Street Bridge Rehab, MPMS# 10740***

The Penn Street Bridge Project in Reading concluded with a ribbon cutting in December of 2019. This 14-span open spandrel concrete arch bridge, constructed in 1913, is the oldest of its type in Berks County. PennDOT determined it National Register-eligible in 2007 under Criterion C, as a well-preserved regional example of bridges that represent City Beautiful movement tenants. Section 106 consulting party involvement was robust from the identification of resources stage through construction. Consulting parties weighed in on preliminary engineering rehabilitation concepts, provided impactful suggestions during the final design phase, and reviewed test panels and color samples in construction. Several historic postcards of

the bridge informed decisions to reconstruct missing elements, including the alcoves and one set of the original obelisks. The project has been very well-received by the local community.

- ***District 11-0: Allegheny Co., I-579 “Cap” Project, MPMS# 97846***

Using an FHWA-sponsored TIGER (Transportation Investment Generating Economic Recovery) grant, the Sports & Exhibition Authority of Pittsburgh and Allegheny County (SEA), the project sponsor, proposed to construct a cap over the I-579 Crosstown Expressway. The proposed project included the closure of a pedestrian tunnel below Bigelow Boulevard. Lining the tunnel was a collection of 28

mosaic panels set in a marble surround designed by Virgil Cantini, a prominent local artist and educator. Through consultation with the State Historical and Museum Commission (SHPO) and the involvement of Section 106 Consulting Parties, PennDOT, on behalf of the Federal Highway Administration (FHWA), determined the mosaics (together with the pedestrian tunnel for which they were designed) eligible for listing on the National Register of Historic Places under Criterion C as a public works project of high artistic value. The demolition resulted in an adverse effect to this significant historic resource; however, the project demonstrated successful cooperation of many organizations and success in minimizing effects through careful removal. In April 2019, the SEA, on behalf of the City of Pittsburgh (owner of the mosaics) removed the 28 mosaic panels without any significant damage and moved them to a secure storage facility. Consultation on identifying a relocation site is ongoing.

Press coverage of the mosaic removals: <https://triblive.com/local/pittsburgh-allegheeny/pittsburgh-preserving-historic-tunnel-mosaic-under-bigelow-boulevard/>

IX. Recommendations

One of the issues that has vexed the Cultural Resources Group for years is specific to PATH: on the project details page under Section 106 information, the funding source is a manual entry (i.e., the cultural resources professional has to identify the source of the funding for the project). The issue here is that, in many instances, this field is missed by the staff person completing the project-level information leaving it for Central Office staff to correct on a monthly cycle. If the staff person does fill out this section, they may misidentify the funding source without identifying the specific section of PennDOT's Multi-modal Project Management System (MPMS). To correct these deficiencies, PennDOT is looking at a way to automate this field in a future PATH release, scheduled for spring 2020.

PennDOT has also been looking at ways to address a funding gap for preserving historic metal truss bridges. Late in 2019, \$18 million was reserved on the draft State Transportation Improvement Plan (STIP) to begin a ten-year program to rehabilitate locally owned historic metal truss bridges not currently on the STIP. The focus will be on exceptional and historic preservation priority bridges. Along with this funding, our group is planning to hire a historic preservation specialist with a background in historic preservation planning. As previously mentioned, this person will assist in the tracking and marketing of PennDOT's historic truss bridges, management of other historic bridge types and programs, and work with local governments and planning organizations to identify bridges that can be marketed and removed from the road system.

Appendix A
Exempted Projects List

APPENDIX A: SECTION 106 EXEMPTED PROJECTS

District	County Name	State Route	Section	MPMS	Project Title	Project Description	Exemptions	Exemption Date	Exemption Maker	Funding Type
