Philadelphia Streets Department

Office of Transportation Infrastructure Systems - oTIS

Philadelphia Planning Commission

PennDOT District 6-0

Pennsylvania Department of Conservation and Natural Resources

Pennsylvania Department of Community and Economic Development

DVRPC

SEPTA

Citizen's Public Participation Task Force Representative

b. Summary of the Process

To date we have held some individual meetings with potential applicants while encouraging them to submit the draft application in the application system. We will schedule meetings for all applicants once we receive the pre-application submissions. The Subcommittee agreed to use the attached selection criteria and weights, and will use Decision Lens again to rank the project applications. Applications will be distributed to the subcommittee for their review and all scoring must be completed in November 2023. In mid-November the Subcommittee will review the list of ranked projects, and before mid-January 2024, projects will be selected regionally with recommendations made to the State. We will go to the DVRPC Regional Technical Committee (RTC) and Board in January 2024 for final approval.
