

**Route 4040 (Gilbertsville Road) Bridge Replacement Project**

**SR 4040, Section MB3**

**Douglass Township, Montgomery County**

**MPMS# 110761**

**Project Purpose**

The purpose of this project is to replace the existing deteriorating bridge carrying SR 4040 (Gilbertsville Road) over the Branch of Minister Creek near the intersection with Grosser Road and Thrush Drive.

**Project Needs**

The following needs have been identified for the project:

- The existing single-span reinforced concrete bridge which was built in 1938 is rated in poor condition.
- There are no shoulders on the bridge or in the adjoining portions of the road up until the intersection.
- There is no accommodation for cyclists.
- Existing guide rail is in poor shape and does not meet current safety standards.
